BBA

Biomembranes

Vol. 1148, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Effect of glycosaminoglycans and PEG on fusion of Sendai virus with phosphatidylserine vesicles
O. Zschörnig, K. Arnold and S. Ohki (USA) 1

DIDS inhibition of deformation-induced cation flux in human erythrocytes
R.M. Johnson and K. Tang (USA) 7

Asymmetry of the magnesium sodium exchange across the human red cell membrane
H.J. Schatzmann (Switzerland) 15

Structural domain mapping and phosphorylation of human erythrocyte pallidin (band 4.2)
E. Dotimas, D.W. Speicher, B. GuptaRoy and C.M. Cohen (USA) 19

Divalent cations, phospholipid asymmetry and osmotic swelling in electrically-induced lysis, cell fusion and giant cell formation with human erythrocytes
L.Y. Song, Q.F. Ahkong, J.M. Baldwin, R. O'Reilly and J.A. Lucy (UK) 30

The relationship between sugar metabolism, transport and superoxide radical production in rat peritoneal macrophages
R.J. Naftalin and R.J. Rist (UK) 39

Polycation-induced enhancement of epithelial paracellular permeability is independent of tight junctional characteristics
G.T.A. McEwan, M.A. Jepson, B.H. Hirst and N.L. Simmons (UK) 51

Identification of a hepatic plasma membrane glutathione *S*-transferase activated by *N*-ethylmaleimide
M.E. Horbach, H. Sies and T.P.M. Akerboom (Germany) 61

Monoclonal antibodies against luminal membranes of renal proximal tubules which are kidney-specific
H.-W. Birk, M. Ogiermann, M. Altmannsberger, G. Schütterle, W. Haase and H. Koepsell (Germany) 67

Polymer-derivatized technetium ^{99m}Tc-labeled liposomal blood pool agents for nuclear medicine applications
C. Tilcock, Q.F. Ahkong and D. Fisher (Canada, UK) 77

Quantitative comparison between aminophospholipid translocase activity in human erythrocytes and in K562 cells
S. Cribier, J. Sainte-Marie and P.F. Devaux (France) 85

Membrane changes in lipopolysaccharide-stimulated murine B lymphocytes associated with cell activation
J.A. Printen, S.L. Woodard, J.R. Herman, D.A. Roess and B.G. Barisas (USA) 91

Kinetic study of A-type current inactivation in *Lymnaea* neurons
S.I. Alekseev and A.V. Zaykin (Russian Federation) 97

The diffusional transport of water and small solutes in isolated endothelial cells and erythrocytes
R.A. Garrick, U.S. Ryan, V. Bower, W.O. Cua and F.P. Chinard (USA) 108

Uptake of phosphate by rat hepatocytes in primary culture: a sodium-dependent system that is stimulated by insulin
P.J. Butterworth and M.J. Younus (UK) 117

The reduction of the inhibitory effect of aluminum on Na^+ efflux in barnacle muscles fibers by preinjecting phosphate
E.E. Bittar and Y.-P. Huang (USA) 123

Induction of a 23 kDa stress protein by oxidative and sulfhydryl-reactive agents in mouse peritoneal macrophages
H. Sato, T. Ishii, Y. Sugita, N. Tateishi and S. Bannai (Japan) 127

Isolation and influenza virus receptor activity of glycophorins B, C and D from human erythrocyte membranes
K. Ohyama, T. Endo, S. Ohkuma and T. Yamakawa (Japan) 133

Fluorescence anisotropy studies on the interaction of the short chain n-alkanols with stratum corneum lipid liposomes (SCLL) and distearoylphosphatidylcholine (DSPC)/distearoylphosphatidic acid (DSPA) liposomes
Y.-H. Kim, W.I. Higuchi, J.N. Herron and W. Abraham (USA) 139

The distribution of intracellular calcium chelator

(fura-2) in a population of intact human red cells
V.L. Lew, Z. Etzion, R.M. Bookchin, R. DaCosta, H. Väänänen, M. Sassaroli and J. Eisinger (UK, USA) 152

Functional correlation between the Ser/Thr-phosphorylation of band-3 and band-3-mediated transmembrane anion transport in human erythrocytes
B. Baggio, L. Bordin, G. Clari, G. Gambaro and V. Moret (Italy) 157

In-vitro stability and cytostatic activity of liposomal formulations of 5-fluoro-2′-deoxyuridine and its diacylated derivatives
M. Van Borssum Waalkes, M. Van Galen, H. Morselt, B. Sternberg and G.L. Scherphof (Netherlands, Germany) 161

Rapid Report

Two yeast peroxisomal proteins crossreact with an antiserum against human sterol carrier protein 2 (SCP-2)
D. Tahotna, I. Hapala, E. Zinser, W. Flekl, F. Paltauf and G. Daum (Austria) 173

Erratum 177

Regular Papers

Characterization of the preparation process and the photochemical control of electrical properties of bilayer lipid membranes containing azobenzene chromophores
H. Yamaguchi and H. Nakanishi (Japan) 179

Effect of epinephrine on the regulation of Na^+/H^+ exchange in human platelets
R. Nieuwland, W. Siffert and J.-W.N. Akkerman (The Netherlands, Germany) 185

Monolayer characteristics of valinomycin in the presence of various salts in aqueous subphase
S.Y. Zaitsev, V.P. Zubov and D. Möbius (Russia, Germany) 191

Computer simulation of lipid diffusion in a two-component bilayer. The effect of adsorbing macromolecules
D.A. Pink, K.S. Ramadurai and J.R. Powell (Canada) 197

Cation-dependent leucine, alanine, and phenylalanine uptake at pH 10 in brush-border membrane vesicles from larval *Manduca sexta* midgut
B.B. Hennigan, M.G. Wolfersberger, R. Parthasarathy and W.R. Harvey (USA) 209

Neutral amino acid symport in larval *Manduca sexta* midgut brush-border membrane vesicles deduced from cation-dependent uptake of leucine, alanine, and phenylalanine
B.B. Hennigan, M.G. Wolfersberger and W.R. Harvey (USA) 216

The site of action of pantoprazole in the gastric H^+/K^+-ATPase
J.M. Shin, M. Besancon, A. Simon and G. Sachs (USA, Germany) 223

Vesamicol blocks the recovery, by recycling cholinergic electromotor synaptic vesicles, of the biophysical characteristics of the reserve population
J. Říčný and V.P. Whittaker (Germany) 234

Potassium currents and effects of vitamin D-3 metabolites and cyclic GMP in rat osteoblastic cells
D. Chesnoy-Marchais and J. Fritsch (France) 239

Cholesterol and phosphoinositides increase affinity of the epidermal growth factor receptor
J.C. Den Hartigh, P.M.P. Van Bergen en Henegouwen, J. Boonstra and A.J. Verkleij (The Netherlands) 249

Alamethicin as a permeabilizing agent for measurements of Ca^{2+}-dependent ATPase activity in proteoliposomes, sealed membrane vesicles, and whole cells
V.B. Ritov, M.K. Murzakhmetova, I.L. Tverdislova, E.V. Menshikova, A.A. Butylin, T.Y. Avakian and L.V. Yakovenko (Russian Federation) 257

Uptake of riboflavin by intestinal basolateral membrane vesicles: a specialized carrier-mediated process
H.M. Said, D. Hollander and R. Mohammadkhani (USA) 263

CD and NMR studies on the aggregation of amphotericin-B in solution
A.R. Balakrishnan and K.R.K. Easwaran (India) 269

The effect of ice on membrane lipid phase behaviour
P.W. Sanderson, W.P. Williams, B.A. Cunningham, D.H. Wolfe and L.J. Lis (UK, USA) 278

Phase behaviour of membrane lipids containing polyenoic acyl chains
W.P. Williams, P.W. Sanderson, B.A. Cunningham, D.H. Wolfe and L.J. Lis (UK, USA) 285

A Raman spectroscopic study of acetylcholine receptor-rich membranes from *Torpedo marmorata*. Interaction of the receptor with carbamylcholine and (+)-tubocurarine
D. Aslanian, P. Grof, J.-L. Galzi and J.-P. Changeux (France) 291

The interaction of *Saccharomyces cerevisiae* trehalase with membranes
P. Soares de Araujo and A.D. Panek (Brazil) 303

Incorporation of *N*-acylethanolamine phospholipids into egg phosphatidylcholine vesicles: characterization and permeability properties of the binary systems
J.C. Domingo, M. Mora and M.A. De Madariaga (Spain) 308

Membrane response to static magnetic fields: effect of exposure duration
A.D. Rosen (USA) 317

Investigation of reconstitution of the Na,K-ATPase in lipid vesicles
Y.A. Ivashchuk-Kienbaum, R. Riek and H.-J. Apell (Germany) 321

Metabolism of the 'organic osmolyte' glycerophosphorylcholine in isolated rat inner medullary collecting duct cells. I. Pathways for synthesis and degradation
H.G. Bauernschmitt and R.K.H. Kinne (Germany) 331

Comparison of adriamycin and derivatives uptake into large unilamellar lipid vesicles in response to a membrane potential
M. Praet, F. Defrise-Quertain and J.M. Ruysschaert (Belgium) 342

Rapid Report

N-Acylethanolamines as membrane topological stress compromising agents
A. Ambrosini, E. Bertoli, P. Mariani, F. Tanfani, M. Wozniak and G. Zolese (Italy, Poland) 351

Cumulative Contents, Vol. 1148 357

Author Index 360
